IGV GROUP: DOMUSLIFT MADE WITH SWAROVSKI ELEMENTS

La brillantezza e la trasparenza di Swarovski Elements si combina per la prima volta al design high-tech dell'elemento ascensore.

Ad Augsburg in occasione di Interlift 2011, fiera leader a livello mondiale del settore della tecnica ascensoristica, l'azienda italiana IGV Group presenterà l'esclusiva e originale versione del DomusLift® made with Swarovski Elements.

Il progetto, ideato e firmato dal noto architetto romano Arianna Callocchia, presenta con un design sobrio ed elegante un raffinato mix tra acciaio, vetro e cristalli Swarovski Elements, la cui bellezza viene enfatizzata dal gioco di riflessi e luci del sistema modulare a LED Microtools Zumbobel.

IGV Group e DomusLift® made with Swarovski Elements vi aspettano a Interlift 2011 (Augsburg, Germania, 18-21 ottobre, Hall 1/Stand 1106) per inaugurare un nuovo concetto di eleganza.

IGV GROUP: DOMUSLIFT MADE WITH SWAROVSKI ELEMENTS

For the first time ever in the high-tech design, shining and transparent Swarovski Elements are combined with a lift system.

On the occasion of Interlift 2011 in Augsburg, the world leading exhibition focused on the lift technology, the Italian company IGV Group is launching an exclusive and original version of DomusLift® made with Swarovski Elements.

The project, conceived and designed by the well-known Roman architect, Arianna Callocchia, boasts a smart, elegant and polished mix of steel, glass and Swarovski Elements crystals, where the beauty of lights and reflections is emphasised by the Microtools Zumbobel LED modular system.

Visit IGV Group and DomusLift® made with Swarovski Elements at Interlift 2011 (Augsburg, Germany, October 18th - 21st, Hall 1/Stand 1106) and enjoy a new concept of elegance and style.
